

## Canine Anesthesia Form

<b>Owner:</b>	<b>Pet:</b>	<b>Phone #:</b>
<b>Procedure:</b>		<b>Date:</b>

- In order to lower the risk of anesthesia, we offer pre-anesthetic blood testing. These tests will help to rule out any unknown problems such as Kidney and Liver Disease, Anemia, platelet disorder, and Diabetes. Due to the added expense, we make these tests optional, but we recommend these tests prior to any anesthetic procedure. **Do you want us to perform these tests at an additional cost of \$66.90**

Yes

No
- Microchipping is a safe and effective way to identify your pet. It is available at a discounted price with surgical procedures. **Would you like for a microchip to be placed for an additional fee of \$28.00?**

Yes

No
- E-collars are used to prevent pets from chewing their stitches out. It is recommended that any surgery involving sutures use an e-collar when they are not able to supervise their pet. **Would you like an e-collar sent home? I understand that this cost is additional according to the size of my pet.**

Yes

No
- Oral pain relief is included in the price of the procedure and can be started the evening of surgery. If this is a procedure with the assistance of a **VOUCHER**, oral pain relief medication **IS NOT** included. Would you like to include 3 days of oral pain medication? (prices vary based on weight of patient, rough estimates can be given)

Yes

No
- Is your pet updated on yearly vaccines?

Yes

No
- **If not, would you like for us to vaccinate your pet? (Prices differ from vaccine packages vs individual vaccines.)**

Yes

No

**Please initial consent.**

- At the time of surgery, we will place an IV catheter to administer medications as well as fluids while your pet is under anesthesia. In order for the IV to be placed, the leg will have to be shaved in order to access the vein. **I understand that the hair on the leg will be shaved and give my consent.** \_\_\_\_\_
- **For dogs that are being spayed only:** I understand that if my animal is in heat or pregnant there will be an additional fee of the following: a.) In heat: \$105 b.) Early pregnancy **BEFORE 40 days:** \$36.75 c.) Late pregnancy **AFTER 40 days:** \$125  
Initial: \_\_\_\_\_
- All animals anesthetized at Monticello Animal Clinic must be free from any contagious parasites (i.e. fleas, ticks, worms, mites). If these contagious parasites are present, your pet must be treated at your expense to prevent the spread of disease to other pets in the hospital. **I understand that if contagious parasites are present on my pet they will be treated at my expense.** \_\_\_\_\_

Bravecto 1 Month \$21.75

Bravecto 3 Month 4 - 22 lbs \$64.75, 22 > lbs \$65.75

***I give Monticello Animal Clinic permission to perform the procedure listed above. I realize that very rarely anesthetic complications do arise, and I will not hold Monticello or Warren Animal Clinic or its employees responsible for any complication that is beyond our control. If my pet needs any other procedure done while at Monticello Animal Clinic, I will not be notified by phone, prior to the treatment being performed, unless the condition is life threatening.***
